## ABSTRACT

The Migrant Education Program (MEP) is a federal formula grant to states for educational services to migrant children, ages 3-21, who made an eligible move in the past 3 years. States use MEP funds to address effects of continual educational disruption by providing instructional or supporting services. This report summarizes participation information provided by state education agencies for 1997-98 and presents individual state profiles. In 1997-98, the number of eligible children increased 2 percent, based on the 12-month count, and states actually served 621,464 students (unduplicated count), up 7 percent. California, Florida, and Texas together served half of participants, 85 percent of whom were Hispanic. Regular-term participation increased 11 percent, with 43 percent of participants in grades 1-6. Among instructional services, the largest percentage of participants received reading services (23 percent), followed by mathematics (19 percent). Among supporting services, nearly half of students received social work or outreach services, and 20 percent received guidance and counseling services. Staff increased 3 percent to 7,871 full-time-equivalent units. Similar data are provided for the summer term. For each state, two pages of tables and figures present child counts, participants by race/ethnicity and grade span, percentage of migrant students receiving each service, staffing information, projects by term type, and information on extended-time and schoolwide projects. Appendices list states not providing MEP services and include the reporting form. (Contains 31 data tables and 9 figures in addition to those in state profiles.) (SV)

**CHAPTER I.**  
**A SUMMARY OF TITLE I MIGRANT STATE PERFORMANCE**  
**REPORT PARTICIPATION INFORMATION**

Recognizing the educational needs of the children of migratory agricultural workers, P.L. 89-750 was enacted in November 1966, amending Title I of the Elementary and Secondary Education Act (ESEA), to authorize a program of services for these youths. During 1997-98, the program operated under the authority of Title I, Part C of the Improving America's Schools Act (IASA) of 1994.

Currently, the Office of Migrant Education (OME) administers five programs for migrant children and their families. The major program is a formula grant to states for educational services to migrant children ages 3-21. Migrant children may receive Migrant Education Program (MEP) services so long as they make an eligible move (either by themselves or with a family member) seeking employment in agricultural or fishing work. The move must have occurred within the 3 years preceding their application for MEP program services. Before the 1995-96 school year, migrant children were eligible for program services for up to 6 years from their qualifying move.

States use migrant grant funds to ensure that migratory children are provided with appropriate services that address the special needs caused by the effects of continual educational disruption. Migrant services are usually delivered by schools, districts, and/or other public or private organizations and can be instructional (reading, mathematics, other language arts, etc.) or supporting (social work, health, dental, etc.).

This report summarizes the participation information provided by state education agencies (SEAs) on Title I MEP for the 1997-98 school year — the 14th year that SEAs were required to submit information using the State Performance Report.<sup>1</sup> The report is organized into two sections: (1) an overall descriptive summary of Title I MEP participation and staffing and (2) individual state profiles.

---

<sup>1</sup>In 1997-98, State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a MEP program during the 1997-98 school year, but had not started serving participants.. The District of Columbia and Puerto Rico are treated as states for the purpose of this analysis.

## Child Counts

### Overall Counts

The Department of Education (ED) uses the overall counts and 12-month (Category 1) and summer/intersession (Category 2) counts of eligible students for allocating MEP funds to states. Students identified as eligible do not necessarily receive program services. The 12-month count is the unduplicated number of eligible children ages 3 to 21 who, within 3 years of making a qualifying move, resided in the state for 1 or more days during the period September 1, 1997 through August 31, 1998. The Category 2 count is the unduplicated number of eligible children ages 3 to 21 who, within 3 years of making a qualifying move, were served for 1 or more days in a MEP-funded project conducted during either the summer term or an intersession period that occurred September 1, 1997 through August 31, 1998. The overall child counts are unduplicated within states. However, the national numbers include duplicated counts across states because a child may reside in more than one state during the reporting year.

In 1997-98, states reported 752,689 eligible students based on the 12-month count, ranging from 210,220 in California to 177 in New Hampshire. States reported 297,676 summer term/intersession students, ranging from 112,114 in California to 80 in West Virginia (Figure 1; Table 1)

## State Highlights

- ◆ California identified the largest number of program-eligible students for both the 12-month and summer/intersession term periods. More than one-quarter of the nation's program-eligible students based on the 12-month count and more than one-third based on the summer/intersession count resided in California. (Table 1)
- ◆ Texas identified the second largest number of students — 16 percent of the national 12-month count (116,912 students) and summer term count (46,244 students). (Table 1)
- ◆ In addition to California and Texas, five states — Florida, Washington, Oregon, Kentucky, and Kansas. — reported more than 20,000 students eligible for funding based on the 12-month count. (Table 1)

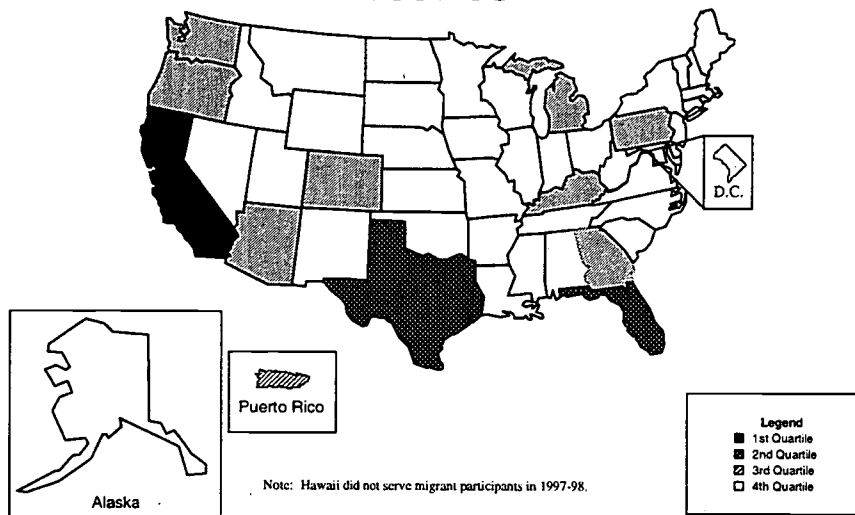

## Participant Counts

Participant counts are the numbers of children participating in a MEP-funded program. The unduplicated participant counts across terms are based on the number of students reported by race/ethnicity. Because a child may be served in one or both terms, the unduplicated count is not the sum of the regular and summer term participant counts. As with the child counts, the participant counts are unduplicated within states, but duplicated at the national level because students often receive services in more than one state. In 1997-98, states served 621,464 students (unduplicated count) through the MEP — an increase of 7 percent (40,800 participants) from the previous year. Prior to the change in eligibility guidelines in 1995-96, the unduplicated count of migrant participants nearly doubled from 1984-85. Even with the reduced eligibility period, the number of participants increased 78 percent between 1984-85 and 1997-98. (Figure 1; Table 2)

As with the overall child counts, migrant participation is concentrated in a few states. One-quarter of migrant participants were served in California during the 1997-98 school year. Florida and Texas together served an additional 25 percent of migrant participants. Participants in the third distribution quartile were served in 8 states and Puerto Rico while those in the fourth quartile were served in the remaining 39 states. Both regular- and summer term participant counts increased between 1996-97 and 1997-98. In 1997-98, states reported serving 525,738 participants in the regular term, an increase of 11 percent (52,477 participants). Summer term participation increased 10 percent, from 283,026 in 1996-97 to 312,415 in 1997-98. (Figure 2; Table 2)

Demographically, most migrant participants are Hispanic (85 percent). Nine percent are white, and less than 3 percent each are black (not Hispanic), American Indian/Alaska Native, and Asian/ Pacific Islander. The percentage distribution of migrant participants among race/ethnicity categories remained virtually unchanged between 1996-97 and 1997-98. (Table 3; Figure 3)

**FIGURE 2**  
**MIGRANT PARTICIPATION BY QUARTILE DISTRIBUTION**  
**1997-98**

**FIGURE 3**  
**RACE/ETHNICITY OF MIGRANT PARTICIPANTS**

## State Highlights

- ◆ Twenty-nine states reported increases in the unduplicated number of participants between 1996-97 and 1997-98. Texas' count increased by more than 10,000 participants (10%), followed by increases in Georgia (8,093 participants – 101%) and Washington (7,503 participants – 89%). (Table 4)
- ◆ Twenty-two states reported decreases in the unduplicated number of participants between 1996-97 and 1997-98. California lost nearly 4,800 participants, which accounted only for 3 percent of the total number served. Alaska's participation declined by nearly 40 percent, or roughly 3,400 participants. (Table 4)
- ◆ Twelve states served fewer than 1,000 migrant participants during the 1997-98 regular term. (Table 5)
- ◆ Migrant participation increased in 34 of the 47 states offering a regular term program. Texas reported an increase of more than 20,000 participants. Participation more than doubled in North Carolina and Washington. (Table 5)
- ◆ California reported only slightly fewer regular term participants in 1997-98 than it did in 1996-97.
- ◆ Thirteen states reported decreases in regular term participation. Alaska lost the largest number of participants (3,764) yielding a 42 percent decrease in the number of participants served in the regular term. (Table 5)
- ◆ With the exception of Hawaii, all states offered a summer term program in 1997-98. Nevada served students in 1997-98, but did not in the previous year. California reported the largest number of summer term participants (114,967), followed by Texas (48,247 participants), Florida (14,932 participants), and Michigan (10,233 participants). (Table 6)
- ◆ Thirty-three states reported increases in summer term participation with an overall increase of 10 percent. A large part of the national increase can be attributed to the increases in participation reported by Texas (an additional 8,440 participants), Florida (an additional 7,965 participants), and California (an additional 7,461 participants). (Table 6)
- ◆ Eighteen states reported decreases in summer term participation with Alabama reporting the largest loss (1,603 participants, or 38%).
- ◆ Almost 40 percent of states served fewer than 1,000 participants during the 1997-98 summer term. (Table 6)

## Regular Term Participation and Staffing

In 1997-98, 47 states offered regular term services to migrant children. "Regular term" refers to the traditional school year, usually operating between early September through late May or early June.

### *Participation by Grade*

As noted above, regular term participation increased 11 percent from 1996-97 to 1997-98. This is the first increase reported since the 1995-96 changes in the eligibility requirements. (Figure 4; Table 7)

The distribution among grade spans was the same in 1996-97 and 1997-98. Forty-three percent of regular term participants were served in the elementary grades (1 through 6), 31 percent in the secondary grades (7 through 12), and 21 percent in preschool. The remaining participants (5%) were classified as ungraded or received services in an out-of-school setting. (Figure 4; Tables 7 and 8).

## *State Highlights*

- ◆ With the exception of the District of Columbia, all states with a regular term program provided migrant services to preschool children. (Table 8)
- ◆ While most states provided migrant services to out-of-school youth, these youth were a small percentage of total migrant participants served – usually less than 5 percent. Exceptions included Maryland where 35 percent of migrant participants were out-of-school youth, New York (23%), Indiana (19%), and West Virginia (17%). (Table 8)

## ***Participation by Service Area***

The migrant program funds a variety of services, both instructional and supporting. States are required to report an unduplicated number of participants receiving services in each of the following categories:

### Instructional

English as a Second Language (ESL)  
Reading  
Other Language Arts  
Mathematics  
Vocational/Career  
Social Studies  
Science  
Other Instructional — (health, driver education, swimming, etc.)

### Supporting

Guidance and Counseling  
Social Work and Outreach  
Health  
Dental  
Nutrition  
Transportation  
Other Supporting (translation services, insurance, etc.)

The percentage of students receiving services for each term is calculated by dividing the number of students reported in a service area by the total number of participants. This is not a measure of the number of interventions a student receives.

In 1997-98, the largest percentage of participants received reading services (23%) followed by mathematics (19%), other language arts (16%) and ESL services (15%). Less than 10 percent of regular term participants received MEP-funded instruction in vocational/career, social studies, and science during the 1997-98 school year. Nearly one-quarter of participants received undefined “other instructional services.” (Figure 5; Tables 9 through 11)

The percentage of participants receiving instructional services declined in all categories except ESL, which remained the same between 1996-97 and 1997-98. Over the past decade, the percentage of regular term participants receiving reading and mathematics services has been declining. For example, in 1986-87 (the first year that all states provided complete service data), 44 percent of regular term participants received reading services compared to 23 percent in 1997-98.

Nearly one-half of migrant participants received social work/outreach services making it the most common service — instructional or supporting — provided to regular term participants. One in five participants received guidance and counseling services. Eleven percent of students received health services, and 9 percent or less received dental, nutrition, or pupil transportation services. Forty-four percent of participants received undefined “other support services” in 1997-98 — a figure that more than doubled from the previous year. (Table 9)

Unlike participation in the instructional service areas, participation in the supporting areas has been somewhat erratic over the past decade, although recent trends suggest that participants are receiving fewer support services than they did in the 1980s. For example, the percentage of students receiving health services fell below 20 percent in 1991-92, 1992-93, and 1997-98 and rose above 30 percent from 1985-86 through 1988-89 and again in 1993-94 and 1994-95. The rate has been holding steady in the 11-12 percent range since 1995-96. (Figure 5; Tables 9 and 10)

## State Highlights

- ◆ With the exception of Maryland and West Virginia all states with a regular term provided services in at least one instructional service area. (Table 11)
- ◆ The percentage of participants receiving MEP-funded reading and mathematics instruction varied considerably across states. Five states (Delaware, Maryland, Massachusetts, Puerto Rico, and West Virginia) did not serve any participants in reading, and four (Delaware, Maryland, Massachusetts, and West Virginia) did not serve any in mathematics. The percentage of participants receiving reading services ranged from 81 percent in Maine to less than 1 percent in Colorado. In mathematics, the percentage served ranged from 70 percent in Michigan to 1 percent in Colorado, Florida, and Georgia. (Table 11)
- ◆ Of the large regular term migrant states, California provided reading instruction to the largest number of participants (43%). However, Florida and Texas provided reading instruction to only 19 and 11 percent of their participants, respectively. (Table 11)
- ◆ Forty-two states provided ESL/limited-English proficient (LEP) services to regular term migrant participants. The percentage of participants receiving these services ranged from 100 percent in Delaware to less than 1 percent in Colorado and Vermont. (Table 11)
- ◆ All but three states with a regular term program offered MEP-funded language arts instruction to migrant participants. States serving large percentages of students in language arts included Illinois (82%) and Wisconsin (65%). (Table 11)
- ◆ In the area of supporting services, guidance/counseling and social work/outreach were most frequently provided to regular term participants. (Table 11)
- ◆ Health services were provided by 39 states. The percentage of students receiving health services ranged from 59 percent in Mississippi to 1 percent in Connecticut and Nebraska. (Table 11)
- ◆ Most states provided dental, nutrition, and pupil transportation services to less than 10 percent of their migrant participants during the 1997-98 regular term. (Table 11)

## Staffing

In 1997-98, states reported 7,871 full-time-equivalent (FTE) units by job classification of program staff whose salaries are paid by the MEP, an increase of 3 percent from the previous year. The number of FTE days that constitutes one FTE is also provided for each term. For example, one regular term FTE may equal 180 full-time (8-hour) work days, one summer term FTE may equal 30 full-time work days, and one intersession FTE may equal 45 full-time work days split among three 15-day noncontiguous blocks throughout the year. The FTE data do not include staff employed in schoolwide programs that combine MEP funds with those of other programs.

Instructional staff (teachers and teacher aides) constituted more than one-half of the total staff in the 1997-98 regular term. Thirty-six percent of all FTE staff were teacher aides, and 19 percent were teachers. Between 1996-97 and 1997-98 the number of teachers increased by 15 percent and the teacher aides by 6 percent. (Figure 6; Table 12)

Recruiters constituted the largest category of non-instructional staff (13% of total staff), followed by linker/advocates (7%), clerical staff (5%), and record transfer staff (5%). Five percent of MEP-funded staff were program administrators. Less than five percent of total staff fell into each of the remaining staffing categories. (Figure 6; Table 12)

Since 1984-85, the number of MEP-funded teachers and teacher aides has declined dramatically. In 1984-85, MEP funded 4,042 teachers compared to 1,496 in 1997-98 — a 63 percent decrease. Similarly, the number of teacher aides has dropped from 6,433 to 2,843 during the same period. Historically, the decline in the number of instructional staff coupled with increases or smaller decreases in regular term participation has led to an increase in the number of participants per MEP-funded instructional staff member (teachers and teacher aides combined). In 1984-85, states reported 30 regular term participants for each FTE instructional staff member; by 1997-98 the ratio had increased to 121 participants per instructional staff member — a difference of 91 participants. The participant to non-instructional staff ratio has also increased, from 88 participants per staff member in 1984-85 to 149 in 1997-98. (Tables 13 through 16)

### *State Highlights*

- ◆ Almost 60 percent of the states (27) reported increases in the total number of staff. Texas reported the largest numeric increase (232 participants or 19% of total staff). (Table 14)
- ◆ Of the three largest regular term migrant states, over one-half of the total staff were instructional in California and Florida, while 43 percent of staff in Texas were funded in the instructional category. (Table 15)
- ◆ New Hampshire funded only instructional staff while Delaware, Maryland, and West Virginia funded only non-instructional staff. The percentage of instructional staff in the remaining states ranged from 94 percent in Maine to 2 percent in Louisiana. (Table 15)
- ◆ Louisiana and Kentucky reported more than 2,500 participants to each instructional staff member. Louisiana and Kentucky's participation to instructional staff ratio were not typical of state funding patterns. Twenty-two states reported a ratio of less than 100 participants per instructional staff member, and 14 reported a ratio of between 100 and 200 participants per instructional staff member. (Table 16)
- ◆ The ratio of participants per non-instructional staff member ranged from 918 to 1 in Maine to 15 to 1 in Delaware. (Table 16)

## Summer Term Participation and Staffing

### Participation by Grade

In 1997-98, states reported 312,415 summer term participants, an increase of 10 percent from the previous year. About one-half of summer term participants were served in the elementary grades (1 through 6). Preschoolers and secondary students each accounted for 25 percent of total participation. (Figure 7; Table 17)

The number of participants increased in all grade spans from 1996-97 to 1997-98. However, the percentage distribution among the grade span categories was about the same in both years. (Figure 7; Table 17)

## ***State Highlights***

- ◆ All states provided a summer term program in 1997-98. (Table 18)
- ◆ All states except the District of Columbia and Puerto Rico served preschool migrant children during the summer term. The percentage of preschool participants ranged from 53 percent in Georgia to 1 percent in Iowa. (Table 18)
- ◆ States with relatively large percentages of out-of-school youth included New Jersey (48%), West Virginia (28%) and New York (25%). (Table 18)

## ***Participation by Service Area***

In the summer term, 46 percent of participants received MEP-funded reading instruction, 41 percent received mathematics instruction, and 38 percent received other language arts services. Throughout the past decade, the proportion of migrant participants receiving instructional services generally has been decreasing. (Figure 8; Tables 19 and 20)

In the supporting areas, the largest percentage of summer term participants (37%) received social work/outreach services and pupil transportation services in 1997-98, followed by transportation (24%) and nutrition services (21%). Eleven percent of participants received health services and 8 percent dental services. (Figure 8; Tables 19 and 20)

The percentage of participants receiving supporting services decreased in all categories except social work and outreach services.. Summer-term participation in the supporting service areas has been declining steadily since the mid-1980s. For instance, 39 percent of summer term participants received health services in 1984-85, compared to 11 percent in 1997-98, and the percentage receiving dental services fell from 27 to 8 percent. (Table 20)

**FIGURE 8**  
**SUMMER TERM PARTICIPATION BY SERVICE AREA**

### State Highlights

- ◆ States were most likely to provide summer term participants with MEP-funded reading, other language arts, and mathematics instruction. Forty-six states provided reading and other language arts instruction to summer term participants and 44 provided mathematics instruction. (Table 21)
- ◆ Most states provided a variety of services in the summer term. Only Louisiana provided one type of instructional service (reading). (Table 21)
- ◆ Of the three states with the largest number of summer term participants, California served a greater proportion of participants in reading, other language arts, and mathematics than did Florida or Texas. (Table 21)
- ◆ Of the states providing reading services, the percentage of summer term participants served ranged from 100 percent in the District of Columbia and Louisiana to 3 percent in Arkansas. The percentage of participants receiving mathematics instruction range from 100 percent in the District of Columbia and Puerto Rico to 3 percent in Colorado and Connecticut. (Table 21)
- ◆ More states (46) provided transportation than any other service. Forty-three states provided nutrition services to summer term migrant participants and 42 provided social work/outreach services. (Table 21)
- ◆ Although only 11 percent of summer term participants nationally received health services, 10 states provided these services to more than one-half of their summer term migrant students. (Table 21)

## Staffing

In 1997-98, states reported 12,690 full-time equivalent (FTE) staff funded by the migrant education program in the summer term, a 4 percent increase over the previous year. The number of staff, including teachers and teacher aides, has remained relatively stable since the mid-1980s. In addition to summer term only staff, seven states reported 209 intersession staff. (Figure 9; Tables 22 through 24)

Staffing increased in 6 of the 10 categories between 1996-97 and 1997-98. The number of teachers increased 6 percent, while the number of teacher aides increased by 3 percent. Decreases ranged from 14 percent in the number of clerical staff to 1 percent in the other staff category. (Table 22)

Of the total number of staff reported by states in 1997-98, more than two-thirds were classified as instructional (teachers and teacher aides combined). States reported slightly more teachers than teacher aides. On average, states reported 36 participants for every instructional staff member during the 1997-98 summer term. The increase in the number of staff coupled with the increase in summer term participation led to an increase in the participant to instructional staff ratio from 1996-97 to 1997-98. (Figure 9; Table 22 and Table 27)

## *State Highlights*

- ◆ Twenty-three states reported increases in total summer term staff and 23 reported decreases. The number of staff remained unchanged in 4 states. California and Texas reported the largest numeric increases while Arizona and Florida reported the largest decreases. (Table 25)
- ◆ Two states — Arkansas and New Hampshire — funded only instructional summer term staff positions in 1997-98. Louisiana funded only non-instructional staff. Of the remaining states, the highest percentage of instructional staff was 93 percent in Oklahoma. (Table 26)
- ◆ Because Washington funded so few instructional staff in 1997-98, its participant to instructional staff ratio was 303 to 1, compared to the national figure of 36 to 1. Excluding Louisiana, the participant to instructional staff ratio ranged from 262 to 1 participants per staff member in Arkansas to 8 to 1 in Rhode Island and South Dakota. (Table 27)
- ◆ Excluding Arkansas and New Hampshire, participant to non-instructional staff ratio ranged from 1,126 to 1 in Washington to 12 to 1 in New Jersey. (Table 27)

## **Projects and Project Sites**

In 1997-98, states operated 12,193 Title I MEP projects across the nation – a 4 percent increase over the previous year. Of the total number of projects, 54 percent operated in the regular term only, 11 percent in the summer term only, and 35 percent in multi- terms. Less than 1 percent of the sites offered an intersession term. (Table 28)

Nearly 3,000 MEP sites operated as part of a schoolwide program that used MEP funds as part of its service delivery during the 1997-98 program year. Twenty-three percent of project sites operated in these schoolwide settings in 25 states. Schoolwide programs permit schools to combine funds from other federal education programs (including MEP funds) as well as funds from Title I/Part A with state and local funds. More than 108,000 migrant participants (or 17% of all migrant participants) were enrolled in schoolwide programs. Almost 70 percent of MEP schoolwide sites and 67 percent of schoolwide migrant participants were located in Kentucky and Texas. (Tables 29 and 30).

Extended-time instructional approaches were offered to migrant participants in nearly one in five regular term project sites. Extended-time approaches include after- and before-school, Saturday, or other extended-time instructional strategies supported in whole or in part with MEP funds and/or services. Thirty-two states offered extended-time services to migrant students. Over one-half of extended-time sites were located in California and Texas. (Table 31)

## Summary

Between 1996-97 and 1997-98, there was a 2 percent increase in the number of eligible students based on the 12-month count and a 5 percent increase for summer term/intersession students. MEP participation – that is, students actually receiving program services – increased in both terms.

The MEP served more children in the elementary grades (1-6) than in any other grade span. However, summer term programs served a larger percentage (46%) of participants in grades 1 through 6 than regular term programs (43%). Summer term participants receive proportionally more services than their regular term counterparts. For example 41 percent and 46 percent of summer term participants received reading and mathematics services, respectively, compared to 23 percent and 19 percent of regular term participants.

Staffing increased in both terms between 1996-97 and 1997-98. States funded a larger percentage of instructional staff (66%) in the summer term than in the regular term (55%). The ratio of participants to instructional staff was much higher in the regular term (121:1) than in the summer term (36:1).

1997-98	621,464	7	525,738	11	312,415	10

- <sup>a/</sup> Participant counts are unduplicated within states but are duplicated at the national level because each state counts and reports participants as they migrate across the country. Therefore, these data may represent overcounts of the number of participants receiving MEP services nationally.
- <sup>b/</sup> The unduplicated count is based on the number of participants reported by race/ethnicity. Because a child may be served in both terms, the unduplicated count is not the sum of the regular and summer term participant counts.
- <sup>c/</sup> The participation counts for 1984-85 through 1994-95 are based on 6 years of program eligibility; counts for 1996-97 and 1997-98 are based on 3 years of program eligibility.

\* Less than .5 percent.

<sup>a/</sup> State performance reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-98 school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due.

<sup>b/</sup> Percentages may not add to 100 due to rounding.

a/ State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-98 school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. North Dakota, Rhode Island, Utah, and Wyoming did not offer a regular term program in 1996-97 or 1997-98.

b/ Ungraded/out-of-school students may include special education children, transitional bilingual students, or those in a correctional setting.

— Data not collected.

a/ See Appendix A for the states that did not provide a regular term program by year.

b/ The participant counts for 1984-85 through 1994-95 are based on 6 years of program eligibility; beginning in 1995-96, the counts are based on 3 years of program eligibility.

c/ Other instructional services are any services not included in the five named categories. Examples cited in the policy manual include health, safety, swimming, and driver education.

d/ In 1988-89, the attendance and guidance category was eliminated and replaced with the guidance and counseling and the social work and outreach categories. For the few states reporting on the revised form in 1988-89, guidance and counseling services were combined with social work and outreach and reported in the attendance and guidance category.

e/ Other supporting services include any services not included in the named categories. Examples include translation services and insurance.

<sup>a/</sup> State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. North Dakota, Rhode Island, Utah, and Wyoming did not offer a regular term program in 1996-97 or 1997-98.

<sup>b/</sup> Percentages may not add to 100 due to rounding.

Total	283,026	(100)	312,415	(100)	10

a/ State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. Nevada did not provide a summer term program in 1996-97.

A summer term is defined as any period of time between May 15 and August 31 that is not part of the regular term.

b/ Percentages may not add to 100 due to rounding.

c/ Ungraded/out-of-school students include special education children, transitional bilingual students, or those in a correctional setting.

\* Less than .5 percent.

<sup>a/</sup> State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. Nevada did not provide a summer term program in 1996-97.

<sup>b/</sup> Other instructional services are any services not included in the five named categories. Examples cited in the policy manual include health, safety, swimming, and driver education.

<sup>c/</sup> Other supporting services include any services not included in the named categories. Examples include translation services and insurance.

a/ See Appendix A for the states that did not provide summer term services by year.

b/ The participant counts for 1984-85 through 1994-95 are based on 6 years of program eligibility; beginning in 1995-96, the counts are based on 3 years of program eligibility.

c/ Other instructional services are any services not included in the five named categories. Examples cited in the policy manual include health, safety, swimming, and driver education.

d/ In 1988-89, the attendance and guidance category was eliminated and replaced with the guidance and counseling and the social work and outreach categories. For the few states reporting on the revised form in 1988-89, guidance and counseling services were combined with social work and outreach and reported in the attendance and guidance category.

e/ Other supporting services include any services not included in the named categories. Examples include translation services and insurance.

Total	12,264.8	(100)	12,689.6	(100)	4

<sup>a/</sup> State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. Nevada and Missouri served summer term migrant participants in 1997-98 but did not report the number of FTE staff. Nevada did not provide a summer term program in 1996-97.

Since summer term projects vary considerably in length across and within states, FTEs are not calculated in a uniform manner. Therefore, these data should be interpreted with caution.

<sup>b/</sup> Percentages may not add to 100 due to rounding.

a/ State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due. Arizona, California, Delaware, Maine, Oregon, and Texas reported interession staff in 1996-97. Alabama, Arizona, California, Delaware, Kentucky, North Carolina, Oregon, Texas and Washington reported interession staff in 1997-98.

b/ Percentages may not add to 100 due to rounding.

- <sup>a/</sup> State Performance Reports were received from 50 states, the District of Columbia, and Puerto Rico. Hawaii implemented a migrant program during the 1997-98 school year. The state was able to identify migrant students, but had not started providing services at the time these reports were due.
- <sup>b/</sup> Title I schoolwide programs allow high poverty schools (those with 50 or more of students in poverty) to serve all students in a school rather than target services only to identified students. Schoolwide projects are encouraged to combine Title I funds with other federal, state, and local funds in order to provide comprehensive, integrated services to children in high poverty schools.
- <sup>c/</sup> Extended-time projects are those that used after-school, before-school, weekend, or other extended-time instructional strategies supported in whole or in part with MEP funds/services.

\_\_\_\_\_

## Migrant Education Grants to State Educational Agencies

## PART A: COUNTS OF STUDENTS ELIGIBLE FOR FUNDING PURPOSES

**ITEM A.1** *Twelve-Month Count of Children Eligible for Funding Purposes*

Enter the *unduplicated* number of eligible children ages 3 - 21 who, within three years of making a qualifying move, resided in the State for one or more days during the period September 1 - August 31 of this reporting year. *A child who resided in more than one district in the State during the reporting period should be reported only once.* [This figure is different from the data reported in the remainder of this report, since ITEM A.1 includes eligible students who may not have participated in MEP services, and excludes participants who are not counted for funding purposes, such as students served in the year after their period of eligibility has expired when other services are not available to meet their needs, previously eligible secondary-school students who are receiving credit accrual services, and children ages 0-2. In Parts B and C of this report, you should report those participants who receive services but are not eligible for funding purposes.]

12-Month Count of Students Eligible for Funding Purposes

TOTAL

**ITEM A.2** *Summer/Intersession Count of Participants Eligible for Funding Purposes*

Enter the *unduplicated* number of eligible children ages 3 - 21 who, within three years of making a qualifying move, were served for one or more days in an MEP-funded project conducted during either the summer term or during intersession periods that occurred within the period September 1 - August 31 of this reporting year. *Count a child who moved to different schools in your State and who was served in both traditional summer and year-round school intersession programs only once.* [This figure is different from the data reported in the remainder of this report, since ITEM A.2 excludes participants who are not counted for funding purposes, such as students served in the year after their period of eligibility has expired when other services are not available to meet their needs, previously eligible secondary-school students who are receiving credit accrual services, and children ages 0-2.]

Summer/Intersession Count of Participants Eligible for Funding Purposes

TOTAL

NOTE: This page should be used to report only those children or participants who are eligible for funding purposes. Parts B and C of the report may include participants who are served but are not eligible to be counted for funding purposes. Students that would be reported in Parts B and C, but not on this page, would include children ages 0-2, students whose period of eligibility has expired but who continue to participate for the remainder of a term or for an additional year if other services are not available, and previously eligible secondary students who are receiving credit accrual services.

## Migrant Education Grants to State Educational Agencies

## PART B: DEMOGRAPHIC INFORMATION

**ITEM B.1** *Participants by Gender and Race/Ethnicity*

Enter the *unduplicated* number of migrant children, by gender and racial/ethnic group, participating during the regular term, summer term and intersession terms *combined*. *Count students in both schoolwide and non-schoolwide programs that were supported with MEP funds/services.*

<b>BY GENDER</b>				
Male		Female		TOTAL
<b>BY RACIAL/ETHNIC GROUP</b>				
American Indian or Alaskan				
Asian or Pacific Islander				
Black (not Hispanic)				
Hispanic				
White (not Hispanic)		TOTAL		

TOTALS ABOVE SHOULD AGREE

**ITEM B.2** *Participants in Schoolwide Programs*

Enter the *unduplicated* number of eligible migrant students who, during the reporting period, attended schoolwide programs that combined MEP funds/services with those of other programs.

Unduplicated Number of Migrant Students in Schoolwide Programs That Combined MEP Funds/Services With Those of Other Programs	TOTAL
--	-------

**ITEM B.3 Participants by Grade and Term**

Enter the number of migrant children in each age or grade according to the term in which they participated in services. See instructions for item B.3 with regards to counting students who participated at more than one grade level during the reporting period. Students who participated in both regular and summer/intersession terms should be counted twice--once for each term in which they participated. At the bottom of the summer/intersession column, enter the number of students from the total for that column who participated in intersession (as opposed to summer term) programs. **Count students in both non-schoolwide and schoolwide programs that were supported with MEP funds/services.**

GRADE	REGULAR TERM	SUMMER/INTERSESSION

<b>TOTALS</b>		
In addition to the total number of students reported for summer/intersession above, enter the number served in INTERSESSION programs only:		

- \* Do not include children in the ages 3-5 category who are counted in kindergarten or other grades.
- \*\* Out-of-school youth may include, for example, drop-out students or those working on a GED in a non-K-12 institution. Exclude preschoolers.
- \*\*\* Ungraded students may include, for example, students in special education, or transitional bilingual programs, or those students working on a GED in a K-12 institution, or in a correctional setting.

## PART C: PROGRAM SERVICES

**ITEM C.1 Instructional Services**

Enter the number of migrant students who received each type of instructional service during the regular and summer/intercession terms. Include only those instructional services provided in whole or in part with MEP funds. Count each child once for each term in which he or she participated in each instructional category. Do *not* count the number of service interventions per child, such as the number of tutorial sessions in a given subject. *Do not count children in a term during which they were served only in schoolwide programs that combined MEP funds/services with those of other programs.*

SUBJECT	REGULAR TERM	SUMMER/INTERSESSION
English for LEP Children (ESL)		
Reading

Social Studies		
Science		
Other (Total)*		

\* On this page and on page 5, if you report participants in the "Other" category and combine a variety of services in the single total, please attach an additional sheet with a list of the services provided.

## Migrant Education Grants to State Educational Agencies

**ITEM C.2 Support Services**

Enter the number of migrant students who received each type of support service during the regular and summer/intersession terms. Include only those support services provided in whole or in part with MEP funds. Count each child once for each term in which he or she participated in each support service category. Do **not** count the number of service interventions per child, such as the number of guidance sessions or doctor visits per child. **Do not count children in a term during which they were served only in schoolwide programs that combined MEP funds/services with those of other programs.**

SUBJECT	REGULAR TERM	SUMMER/INTERSESSION
Guidance/ Counseling		
Social Work, Outreach or Advocacy		
Health		
Dental		
Nutrition		
Pupil Transportation		
Other (Total)* * see note, page 4		

**PART D: PROGRAM DESCRIPTIVE INFORMATION****ITEM D.1 Number of Project Sites by Term**

Enter the number of sites that operated a migrant education program, by term. **Include both sites that operated schoolwide programs and non-schoolwide MEP sites.** A project site is a central point, frequently a school building, where people come together to receive or provide services. A site may also be a sending office which coordinates outreach activity not actually performed in the central location. See glossary for examples. See instructions for distinctions between regular, summer, intersession, and multi-term projects.

Regular-Term Only Projects	Summer-Term Only Projects	Intersession Only Projects	Multi-Term Projects	TOTAL

## Migrant Education Grants to State Educational Agencies

**ITEM D.2 Regular-Term Extended-Time Instructional Approaches**

Aside from intersession and summer programs already noted in ITEM D.1, enter the number of regular-term project sites (including both traditional and year-round calendars) that used after-school, before-school, Saturday, or other extended-time instructional strategies supported in whole or in part with MEP funds/services. **Count both schoolwide and non-schoolwide MEP sites.** See Glossary for definitions.

Number of Regular-Term MEP Extended-Time Project Sites	TOTAL	
--	-------	--

**ITEM D.3 Schoolwide Programs**

Enter the number of sites that operated a schoolwide program that combined MEP funds/services with those of other programs.

Number of Schoolwide Program Sites That Combined MEP Funds/Services With Those of Other Programs	TOTAL	
--	-------	--

**ITEM D.4 Staff**

Enter the number of staff whose salaries are paid by the MEP by job classification and by regular, summer and intersession terms. Report in full-time equivalents. Define what constitutes 1 FTE for each term in your State. **Do not include staff employed in schoolwide programs that combined MEP funds/services with those of other programs.**

Staff Category	Regular Term	Summer Term	Intersession Term
	1 FTE = _____ Days	1 FTE = _____ Days	1 FTE = _____ Days
Administrators
